

What We Offer

Paint Color Matching

Bring in paint swatches or color samples and we will create a custom tint to match. If you or your client are unsure, select a few of our low-cost samples to try out so you can find the right fit.

Interior Paint

Search through hundreds of color samples to find the colors that you need. We offer a number of sheens such as flat, eggshell, satin, semi-gloss, and high-gloss to get you the look that you need on your walls, trim, and ceilings.

Exterior Paint

When you're dealing with changing weather conditions, you want a paint that can withstand them all. We offer durable paint in flat, low luster, and semi-gloss sheens to freshen up the outside of any building.

Stain

Choose from a variety of oil modified (VOC Compliant) and water based stains and finishes for your decks, patios, fences, and other wood projects. Our stains are made durable to last in outdoor climates with options that don't require a primer.

For Your Business

We offer five gallon buckets, spray equipment & accessories, and all of the painting sundries you need to get the job done.

We'll quote you the paint and tools you need before you buy so you can make sure that you have the right equipment at the right price. Once you place your order, we'll deliver your order right to the job site.
